Savary Island FireSmart Chipping Days Pilot Project

June 22 & 23, 2026

RSVP by June 1, 2026 by emailing firesmart@qathet.ca

- Debris piles must be located adjacent to the road for Truck and Chipper access.
- No Boards or Lumber.
- Limbs must not be greater in size than 9".
- No dirt or nails or metal objects allowed in the wood.
- Piles must be organized with Butt (large) ends facing the road and stacked. Piles not stacked properly will not be picked up.

Wildfires are a natural part of our coastal forests. With simple FireSmart steps, you can help protect your home and community.

Get expert advice from the qRD's Regional FireSmart Program.

View the Coastal Homes and Properties Guide to learn how to FireSmart your property and reduce the risk of wildfire damage.

Book a free FireSmart assessment to learn what you can do to improve your home and property's wildfire resilience. Improvements may be eligible for rebates.
