ADDENDUM #1

Request for Proposal: 1220-339

Environmental Monitoring and Reporting Resource Recovery Centre

Issue Date: October 13, 2026

Addendum Contents: These 2 pages

This addendum shall form part of the Request for Proposal document and is to be read and coordinated with all other parts.

Question 1: For the purposes of the Price Evaluation described in Section 6.2 and 6.3, proponents are required to provide pricing for both Scenario 1 and Scenario 2. Could qRD please clarify how pricing will be evaluated?

Answer 1: Pricing for Scenario 1 and Scenario 2 will be evaluated independently using the price evaluation formula set out in Section 6.2. For each scenario, the lowest-priced compliant Proposal will receive 50 points, with other compliant Proposals receiving a proportionate score in accordance with the formula provided in the RFP.

Question 2: Will Scenario 1 and Scenario 2 be evaluated independently?

Answer 2: Yes.

Question 3: Will qRD determine its preferred scenario prior to evaluation and score pricing based only on that scenario?

Answer 3: No.

Question 4: Will pricing from both scenarios be considered together in determining the overall Price score?

Answer 4: No. The prices for Scenario 1 and Scenario 2 will not be added together or otherwise combined for the purpose of calculating a single price score. Each scenario will receive its own score.

Question 5: Is qRD able to indicate whether it currently anticipates awarding Scenario 1 or Scenario 2, or whether the determination will be made following proposal evaluation?

Answer 5: qRD has not predetermined whether Scenario 1 or Scenario 2 will be awarded. Following evaluation, qRD will determine which scenario provides the best overall value, taking into consideration the proposal evaluation results, operational requirements, budget considerations, and qRD's internal costs associated with each delivery model.
